# 16<sup>th</sup> Asthma Partners in Care

## Welcome Address

Dear Friends and colleagues,

Welcome to our 16th Annual Asthma CME / CPE program.

We have a special program this year. Besides a succinct update on asthma management (adult and paediatric) and treatment of allergies, we have made the program more comprehensive by including management of COPD. This is in recognition of the expanding role of Primary Care in the management of Airway Diseases (Asthma and COPD).

In addition to lectures, we also hope to provide you with relevant skills to educate your patients (includes counselling, inhaler techniques and recognition and self-management of an exacerbation of their airway disease).

We hope that these topics will be useful to your day-to-day practice.

Warm regards

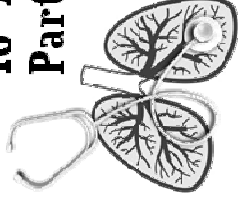

**A/Prof Loo Chian Min**

Head & Senior Consultant  
Department of Respiratory & Critical Care Medicine,  
Singapore General Hospital

# Saturday, 5 March 2011
