Multidisciplinary and Multimodal approach in Musculoskeletal Pain

VIAGRAZULI09

WELCOME MESSAGE

2010 is the Global Year Against Musculoskeletal Pain and the first GP forum organized by the Pain Management Centre in Singapore General Hospital. The spotlight is on the management of Musculoskeletal Pain.

We have a team of specialists who will bring you through the complete spectrum in the diagnosis and management of this commonly seen condition in the clinics, ranging from massages, magnets, medications, interventional procedures and minimally invasive surgery.

Join us for this interactive session in our Multidisciplinary and Multimodal approach in Musculoskeletal Pain.

Dr Tan Kian Hian
Director
Pain Management Centre
