Course Objectives

To provide doctors, particularly new Medical Officers in the Division of Surgery, with the theoretical and practical knowledge for appropriate wound closure, simple surgical procedures, laparoscopic techniques and bowel anastomosis to improve the clinical outcome in patients.

Target Audience

The expected individuals to attend this course will be Medical Officers newly posted to the Division of Surgery. House Officers are welcomed too.

In order to maintain a proper trainer-to-trainee supervision ratio, this workshop is limited to **40 participants** only.

The organisers reserve the right to cancel the workshop should unforeseen circumstances necessitate it.
