

BASIC ULTRASOUNDskills Workshop

**NOW running
in Sept 09**

A Postgraduate Skills Training programme for
Medical Officers, Registrars, and Consultants
who wish to use Ultrasound in their clinical work.

Co-organised with the Division of Surgery and the Department of General Surgery, Singapore General Hospital

Saturday, 5 September 2009

9.00am – 4.00pm

Lectures Venue: SGH Postgraduate Medical Institute (Blk 6 Level 1)

Practical Venue: Urology Centre

Highlights...

- A one-day workshop that integrates the basics of Ultrasound techniques and its application in the field of Emergency Medicine, Trauma, Urology, and Vascular access.
- Comprising didactic lectures complemented by small group practical sessions conducted with **real patients**.

How it Benefits You...

Ultrasound is a quick test that is useful in the emergent assessment of a patient. The early detection of a leaking aortic aneurysm or haemoperitoneum in abdominal trauma allows rapid decision making. It is also used increasingly to guide interventional procedures and this workshop aims to teach its use in the insertion of difficult central venous lines.

Objectives...

Participants will...

- gain an understanding of ultrasound physics, knobology and basic skills to perform and interpret the images.
- be taught the application of Ultrasound techniques to aid insertion of central venous lines.

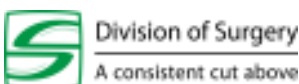

REGISTER EARLY! Limited to first 24 participants ONLY

Registration Fees	SingHealth/ MOHH	SGD 220.00
	Non-SingHealth	SGD 240.00

To register, please complete the registration form attached and fax to: 6223 9789
